Go Wherever Your
Business Grows

Anytime, Anywhere Payments

Wherever you are on your business journey, Converge is there for you.

Are you looking for a flexible payment solution that allows you to accept credit and debit card payments in a variety of ways? Converge is just what you need for taking payments in-person, online or on the go.

IN-STORE

Our Converge-supported peripherals plug and play to make it easy – for you and your customers – to accept payments in person. Accept NFC (contactless) payments, including Apple Pay®, plus more to come in the future.

E-COMMERCE

Converge has flexible e-commerce options, whether you're looking for a simple hosted payment page or to integrate payments seamlessly into your online experience. You can also add PayPal to your payment page as another flexible and trusted online payment option.

MOBILE

Take payments on the go with our intuitive mobile app, compatible with most smartphones and tablets. We also make it easy to integrate Apple Pay into your mobile app for purchases.

MAIL & PHONE

Converge is a great option for taking payments over the phone or via mail order. It's also ideal for businesses with recurring, installment or future-dated payments. You can also process multiple payments at once or load batch files for efficiency.

An Omni-Commerce solution, designed for today's business

Companies of all sizes across a wide range of business types use Converge, including retail, restaurant, service, public sector, B2B and wholesale. Login to the “virtual terminal” for a solution that’s easy to implement and manage. If your business has more complex needs, use the Converge API to add payments to your own mobile, software or other applications. It’s just that flexible.

We get it, you have a lot on your plate. When it comes to payments, let us be your trusted partner so you can focus on all the other aspects of running your business.

Converge is ready to power your payments – now and in the future.
