

mixture® Home Products exclusively offered by Edenborough Ltd.

Edenborough Ltd. is very pleased to bring mixture® to the Canadian market with the launch of the Home Products Collection.

Since 2008, mixture® products have been handmade in small batches in a production facility outside Kansas City. They use the most luxurious fragrances they can find to mix with their products to create a mood, stir a memory, or simply help you relax. As a made to order company, customers get to experience smelling the fragrance of a freshly made product.

An environmentally conscious company, every mixture® product and packaging has specifically been chosen to minimize our environmental footprint.

For further information, call Edenborough Ltd. at 800-265-6398 or visit our booth at the Toronto Gift Show, International Centre, Hall 2, Booth 2312.
