

House of Jewellery is proud to announce that we've launched the new Personalized Jewellery Collection as of October 2020.

Our customers can now offer earrings, necklaces, bracelets, and other accessories to their clients with names, dates, or other information of their choosing. These items are available in rhodium and gold plated sterling silver.

After the high demand for custom accessories, House of Jewellery secured a manufacturer who could meet our needs - and just in time for the holidays, too. Personalized jewellery makes for an ideal gift, being both sentimental and fashionable.

When asked about the new service, Owner of House of Jewellery, Rishabh Khamesra said, "This gives our clients the ability to truly offer a custom-made solution to all their customers with a product that has a strong emotional appeal to the end customer."

House of Jewellery has been in the Canadian Wholesale industry for over 30 years. In that time, we've curated a quality selection of sterling silver and 10 & 14k gold jewellery. For more information on private labelling jewellery, please visit [our website for more details](#).
