

## PRESS RELEASE

HUSS Incense – The greatest selection of incense burners and cones

### HUSS INCENSE INTRODUCES THE NEW “CANDLE PYRAMID”

HUSS Incense is the official partner in Canada and the United States of the German manufacturer "Jürgen Huss Räucherkerzen" who produces and sells HUSS Incense burners, ovens, and cones. We are proud to keep the tradition of incense burners in North America alive and liaise strongly with the manufacturer in Neudorf, Germany to keep our customers up to date and to introduce new products rapidly.

Our latest addition to the HUSS Incense family is the **NEW Candle Pyramid** available in three shimmering colours.

Perhaps the smallest metal pyramid for tea lights.

They work simply, like a conventional one, as you know it.

1. Carefully place the wing in the center.
2. Insert a lit tealight.
3. The rising warmth drives the wing.

**ABOUT:** HUSS Incense is the official partner in Canada and the United States of the German manufacturer "Jürgen Huss Räucherkerzen" who produces and sells HUSS Incense burners, ovens, and cones. All incense burners and cones are made entirely of natural materials and are all developed and manufactured in Germany.

HUSS fragrance and incense burners are of high quality and, in their various forms, such as small pots, pans, ovens, stoves, pyramids, jugs, and locomotives, capture the hearts of young and old alike. HUSS Incense is a division of ADEPT24 Business Solutions, which is representing German companies in North America.
