

## PRESS RELEASE

MyBrilliantStar – Seasonal and year-round lighting decoration

### MYBRILLIANTSTAR'S NEW PRODUCT LAUNCH 2022

MyBrilliantStar introduces their yearly Special Edition. Herrnhut Stars are a unique seasonal and year-round lighting decoration, traditionally made in Germany.

#### Special Edition 2022 – SILVER GLITTER

Since 2015, the Herrnhut Manufacturer has been releasing a limited Special Edition in a unique colour every year. This year's colour was chosen because of the anniversary year for Herrnhuter in Germany. It is preferable to combine silver with darker colours. Some lovely red roses or even our little red star is certainly a good choice for this. However, for the elegant appearance of our new edition, it can also be combined very well with white.

**Already introduced in 2021 but for the first time at the show in Toronto**

#### The White Ministar

with a size of 8 cm / 3 inch, it will be the smallest star in the portfolio. The Ministar has a great success story - it was introduced as a highly popular limited edition three years ago in Germany, and now it is finally available in Canada.

The Ministar might already be familiar from the beautiful candle arch “Schwibbogen”, which features it above the Christmas scene. Now the cute Ministar can be purchased separately. The white star is lovely for floral summer arrangements, but also as Christmas decoration.

**ABOUT:** MyBrilliantStar is the exclusive distributor of Herrnhut Stars in Canada and the United States. We offer North America's largest selection of Herrnhut Stars incl. accessories and spare parts. Our Moravian stars are a great seasonal and year-round lighting decoration, traditionally handmade in Germany. MyBrilliantStar is a division of [ADEPT24 Business Solutions](#), which is representing German companies in North America.
