

Revised: February 20, 2019

To become a CanGift Member and to maintain Member-in-Good Standing status, companies must meet the established criteria. First companies must actively supply goods at the wholesale level to industry related retailers and second, they must meet the acceptable product criteria as established, reviewed, and amended by the CanGift Board of Directors.

These guidelines were recently reviewed and amended. The following pages provide a detailed listing of products that are acceptable and unacceptable for membership and/or display at the Toronto and Alberta Gift Markets. This listing includes specific guidelines to help ensure the products you choose to display at CanGift markets fit within the acceptable product criteria.

While extensive in scope, we anticipate some items may have been overlooked during our review. If you have a question about a specific product or require clarification, please do not hesitate to contact the Membership or Trade Show department.
