

FOR IMMEDIATE RELEASE – Press Announcement

CANDYM/CANFLOYD INTRODUCES VANCE KITIRA

Canfloyd is delighted to announce the addition of the Vance Kitira line to our portfolio. Vance Kitira, has collaborated with Sullivan’s to distribute this beautiful candle line throughout North America. As the exclusive distributor of Sullivan’s in Canada, Vance Kitira can be added on to all Sullivan’s orders.

Timber® candles are known throughout the industry as the ORIGINAL hand-poured, distress-textured candles. They display a warm glow and boast phenomenally long burn times. The fully-refined, food-grade paraffin wax has been hydro treated to remove impurities and color. The result is a wax that is water clear, odorless and smokeless during burning. They use only 100% cotton wicks from the U.S. and fine dyes from Germany.

Timber Candles have been tested by the independent SGS Laboratory in France and have been deemed clean-burning and environmentally friendly.

Timber Candles purposely have a 3 ¼” diameter, thus increasing the wax content by 17%. This unique trait, along with their trademarked palm strip, bamboo string and signature knot, sets this brand apart from copycat factories.

Timber Candles come alive in 30 colors, and are available in taper and pillar sizes from 2”- 6” diameters, in various heights. The deep rich tones and distinctive colors allow for an unending mix & match throughout the seasons. Please contact your Canfloyd sales rep to place your first order or shop with us on line www.canfloyd.com by linking to shopzio where you will find access to the full Sullivan’s brand.
